Dec. 2, 2021

On May 11, 2021, the Planning Department received a Comprehensive Plan Text Amendment request to convert rural land into a new category called the House Farm Data Center Application. The application covers 27 individual properties that are located on both sides of Pageland Land and adjacent to Manassas National Battlefield Park. County staff are reviewing the proposed amendment and will return to the board to present their recommendations.

On Mar. 16, 2021, the Board of County Supervisors voted 5-3 to approve the Independent Hill Small Area Plan, effectively altering the Comprehensive Plan and the planning process, effectively altering the Comprehensive Plan of the project.

Important things to know:

1. Data centers can have significant impacts on the environment and local communities.
2. Prince William County already has about 3,100 acres in its industrial-zoned data centers, which are increasing energy usage and greenhouse gas emissions.
3. Data centers are a modern industrial reality that can serve Prince William County well if they are carefully and properly sited.
4. Because these land-use decisions would impact National Parks, this is more than a local issue. Consider writing a letter to the
